- The tax filer (or spouse if requesting information from a joint tax return) must sign and date the form and enter their telephone number.
- Mail or fax the complete form to the appropriate address on page 2 of the 4506T-EZ form.

How to fix address matching problems when ordering online

When entering the information into the IRS address matching system note the following:

- The address entered must match the address already on file with the IRS exactly.
- The address on file is typically the address on your most recent tax return.
- Spelling out the word "street" rather than using the abbreviation "st." can be enough to cause an error.
- Addresses on the IRS system are auto-corrected through a post office program and may not match what you put on your tax return.
