WHAT FORMER STUDENTS SAY ABOUT CCC'S HEALTH SCIENCES PROGRAMS

"The instructors at CCC were fabulous. Everything I learned in the program, I am using in my new career as a certified phlebotomist and clinical lab assistant, passing both national AMT exams. Before I left the program, I had an on-call job at the clinic where I did my practicum and a month after graduation I had a permanent part-time job at Kaiser Permanente in the research center. I am so happy with the decision I made to return to college after 27 years out of high school."

– Kristi Bays, Class of 2016

"The instructors in the CCC Nursing Program were incredibly accessible, with a truly open door policy – creating a great support system. ... The Nursing Program offered scholarships and also provided a seamless transfer to OHSU."

– Samantha Cronin, Class of 2016
